Re: Block 137, 140 A Ave., Lake Oswego, OR 97034
~Regulated Materials Abatement

Mr. Henderson,

Pacific Northwest Environmental, LLC has completed the removal of regulated building materials from former retail spaces located at 140 A Ave., Lake Oswego, Oregon, as identified in the July 14, 2015 Regulated Materials Abatement Scope of Work and Bid Documents prepared by G2 Consultants. Materials removed by PNE include asbestos containing materials, mercury switches, PCB containing light ballasts and mercury containing light bulbs.

All work has been performed in accordance with local, state and federal regulations by Oregon Certified Asbestos Supervisors and Workers.

Waste generated by PNE activities has been properly packaged and shipped to authorized landfills or recycling facilities.

Please do not hesitate to contact me with any questions or additional requests.

Respectfully,

Julianne Brostoski, CEO
